BOSWORTH A ONE DEFEATED.

Champion Continues His Good Work But Dropped One

Van Wickle Game to King after Winning the First

—Tournament Will Not be Taken Away From Norwich—Games are Ahead of Schedule.

At the conclusion of the games in the national roque tournament Wednesday night, Champion Bosworth stood at the head with five straight victories. These games have been won from some of the easier players and he has yet to meet the hard men. He is, however, in fine condition and playing a snappy game, so that whoever he meets will have to be on his toes.

On Wednesday afternoon the first game of the second round was played between Bosworth and King. The first game was won by Bosworth, who was in fine form, but the second game was taken by King. Bosworth had secured a rover and had made several errors. With his second ball, the clearest shot by King gave him possession of the balls and he used this advantage with telling results.

For the second round, Whitaker and Sullivan played in the evening. It was a game which lasted two hours or more, and in which each player missed many easy shots. Several fine crosses were made, however. Sullivan had secured a rover and was for the ease going down with his second ball.

There was a very large attendance at the evening games. The games were played in the evening, and the main feature was a home run made by Herman Miller, who had been in the hospital for some time. The following was the line-up:

Young Eagles—Daniel Perkins, C. Wilfred Langlois, Michael Murphy, Charles McSherry and Eugene Mercher. Edmund McSherry, Jr., Wilfred Mercher and George Poyet were the Young Sluggers—Eugene Tetreault, C. John Murphy, George Smith, J. B. Jones, and Daniel W. Jones.

Improvements and Repairs to Wequonoc School Buildings—Baseball Notes—Note and Comment About the Village.

The work in connection with the repairs and improvements to the two school buildings is making satisfactory progress. The new building was employed there daily and it is expected that the work will be entirely completed within a couple of weeks more. The toilets are to be 9x26 and will contain all the modern improvements. The most fixtures will be installed. Four two-toe windows on the south side of the schoolhouse will give additional light and two 14 inch ventilators running to the roof will ventilate the toilets.

On Wednesday a number of men were engaged in making connections with the sewer pipe and with the main water pipe, where a two inch line will be placed for the present half-inch pipe.

In the east schoolhouse many changes have been made which have improved the interior of the building to a great extent. These rooms have been placed and are equipped with new desks of the latest manufacture.

Both schoolhouses have received their annual cleaning and are in excellent condition for the beginning of another year.
